

WILD TREASURES

- **WILD TREASURES:** The jewel as reminiscence of a far away world and its exotic mysteries, the catalyst of a dialogue between cultures and their countless suggestions. The jewel, right out of the wilderness, as symbol of femininity and passion.
- A cost effective yet impressive concept that plays on various points of contact between complementary worlds such as fashion, art and craftsmanship:
 - Heads, busts and hands, reminiscent of a RTW environment for a more dynamic yet organic display
 - Kentia palms, decorative props at minimum cost, great alternative to expensive production and furniture
 - Dramatic lighting enhancing an evocative and mysterious atmosphere
